DEER

Control:

- ▶ Choose plants that deer do not prefer
(list on page 52 of Bugs, Slugs and Other Thugs)
- ▶ Use a deer repellent – Check and replenish after rains
- ▶ Human hair, dog hair or cat hair placed in nylon stockings or mesh bags - hang near the plants you want to protect or around the border of the garden
- ▶ Rags soaked in kerosene placed in the bags or mothballs used in the bags as above have also proven effective
- ▶ Hang bars of deodorant soap around the garden (Dial works the best)
- ▶ Blend 2 or 3 rotten eggs in a gallon of water and spray on plants
- ▶ Taste repellents work on plants (**do not use on your vegetables!**)
Hot pepper sauce or Tabasco sauce solution of 2 tablespoons per gallon sprayed on foliage stops deer feeding
