

AZILDA GREENHOUSES

300 Carriere Street, Box 1372, Azilda Ontario P0M 1B0

(705) 983 – 5252

1 Million Acts of Green RABBITS

Control:

- ▶ Most rabbits do not like open spaces so limiting hedging near the garden takes away a hiding place and refuge
- ▶ If you have lots of room plant a tempting crop a great distance from the garden to lure the rabbits over there
- ▶ Place **wood ash** or **crushed limestone** (careful as they alter the soil) Or place **ground hot peppers**, or **ground black pepper**, or **chili powder**, or **talcum powder** on the soil around plants.
- ▶ Use blood meal or human hair around plants (collect from hair dressers)
- ▶ Interplant garlic, onions, marigold in the garden
- ▶ Use the following fish/garlic spray .
Soak 3 or 4 ounces of chopped garlic in 2 tablespoons of mineral oil for 24 hours. Then add 1 teaspoon of fish emulsion dissolved in 2 cups of water. Mix and strain. Dilute 1 tablespoon for this mix per cup of water and spray around vulnerable plants.
- ▶ Bury empty pop bottles in the ground with the tops off - as the wind whistles the noise scares the rabbits
- ▶ Large Clear glass bottles filled with water tend to scare rabbits
